- (a) Designate a state of principle license. The applicant must meet one of the state of principal license eligibility requirements in Compact Section 4 at the time the application for a letter of qualification is reviewed by the designated state of principal license's member board. A member board shall apply Compact Section 4 requirements contemporaneously when evaluating an applicant's designation of a state of principal license.

- (a) Complete the registration process established by the Interstate Commission.

- (a) An expedited license shall be valid for a period consistent with the licensure period in the member state and in the same manner as required for other physicians holding a full and unrestricted license within the member state.

5.6 Expedited licensure application cycle

- (1) An application for expedited licensure shall be considered open from the date the application form is received by the state of principal license.
- (a) If the applicant does not submit all requested materials within 60 days after the application is opened, then the application shall be deemed to have been withdrawn. The applicant must reapply and submit a new application, a new nonrefundable application service fees as determined by the state of principal license and the Interstate Commission.

The e-mail notice shall be sent to the address specified in rule 2.2. The physician is responsible for renewing the license prior to its expiration. Failure of the physician to receive a renewal notice does not relieve the physician of responsibility for renewing the license through the Interstate Commission. The physician shall update the information provided on the online renewal application within 30 days of any change of information provided on the application.
- (2) The physician shall complete an online renewal application on a form provided by the Interstate Commission which shall include collection of information required in Section 7 of the Compact and such other information as required by the Interstate Commission.

- (6) After the license is renewed the member board may collect and act upon additional information from the physician related to that state's specific requirements for license renewal.
- (7) Physician information collected by the Interstate Commission during the renewal process will be distributed to all member boards.
- (8) A physician who seeks to renew a license issued through the Compact after its expiration date may be subject to any and all penalties, terms and conditions for licensure renewal established by the member state that issued the license.

- (1) This rule is effective retroactive to the March 9, 2020, declaration of a national emergency by the President of the United States in response to the COVID-19 pandemic. At such time, each Board or Executive Committee of the Commission

has the authority to temporarily waive enforcement of the timeframes of the Commission's rules which are not statutorily required.

(2) Such waiver would be justified based upon:

- (b) The degree of benefit (or detriment) of such waiver to the physician and/or public health; and
- (c) The anticipated duration of the emergency.

(3) The length of any waiver would be subject to the length of the national/state emergency declaration or one hundred and eighty (180) days from the date of promulgation, subject to one extension of equal length, or preemptively concluded by a majority vote of the Commission, whichever first occurs.

At such time, each Board or the Executive Committee of the Commission has the authority to temporarily waive enforcement of the timeframes of the Commission's rules which are not statutorily required.

(2) Such waiver would be justified based upon:

- (a) The degree of disruption of procedures or timeframes regulating the movement of physicians under the applicable provisions of the Compact, which is the basis for the waiver;*
- (b) The degree of benefit (or detriment) of such waiver to the physician and/or public health; and*
- (c) The anticipated duration of the emergency.*
