Two important terms used throughout this document:

- The Interstate Medical Licensure Compact Commission, aka IMLCC, are the actions and activities of the compact’s commissioners and staff
Summary of Activity – July 2020 to June 2021

The IMLC continued to experience an incredible period of growth and development during Fiscal Year 2021 (July 1, 2020 to June 30, 2021). The impacts of the COVID-19 pandemic were felt in many ways – but most importantly in the role that the IMLC played in providing a reliable method to obtain licenses quickly in multiple states. The IMLC experienced a processing growth nearly double that of the prior year. The data information is provided below.

The credit for the IMLC’s accomplishments rest with the state board licensing staff and the IMLC staff. The IMLC process was the right solution in a terrible time, that allowed physicians to respond to the patient needs in states and expand into providing alternative health care options like telehealth. Although some processing was slowed, because of board office closings and staff moving to work-at-home environments, the increased application volume has resulted in the needed licenses being issued.

Processing Volume

- 5,650 applications processed (4,430 in FY2020)
- 10,198 licenses issued (4,578 in FY2020)
- 8,756 licenses renewed (3,260 in FY2020)

COVID-19 Pandemic Processing Information

- 12-month period Pre-Covid (March 2019 to February 2020)
  - Applications processed = 3,738
  - Licenses issued = 3,877
- 12-month COVID-19 Pandemic (March 2020 to February 2021)
  - Applications processed = 5,282
  - Licenses issued = 8,126

Budget Report

The IMLCC FY2021 budget was approved by the Executive Committee at its June 8, 2021 meeting. A copy of the original and amended budgets are available on the IMLCC webpage at https://www.imlcc.org/imlc-commission/budgets/

The IMLCC will not levy or assess fees to member states for FY2022. The IMLCC has never levied or assessed fees to member states and remains fiscally sound with reserves sufficient to cover at least 18 months of operating expenses.
Executive Director Report

Last year was marked by expansive growth and this year has been marked by explosive growth. The IMLC was well positioned to help physicians obtain licenses quickly when speed was needed to respond to the COVID-19 pandemic. The 10,000th license was issued using the IMLC process in April 2020 and the 20,000th license was issued in May 2021 – helping to celebrate our 4th year of operation. The IMLC continued its growth as an organization through converting positions from independent contractors to employees in August 2020. A new system, iStarsII, was launched in August 2020 and development of Phase II projects was initiate in the Spring of 2021, in preparation for the new year. The IMLC completed multiple audits in the last year, demonstrating fiscal soundness to the organization and a solid budgeting process, as the unaudited running budget information tracked closely to the audited financial statements.

The IMLC is an important part of the physician licensure picture and as new states join the picture becomes clearer and stronger.

Commissioner Terranova (ME)
The chair provided comments to the commissioners, highlighting the growth of the commission through additional member states joining and legislation being introduced. The IMLCC will continue to expand and the growth process will be a constant for several years into the future. The IMLCC is well positioned for this growth with the new iStarsII system and expanding staff.
Change is important for the organization as we continue to grow; each new member board will bring a different perspective. The member boards and the active participation of the commissioners is the key to making sure that the IMLCC is positioned for the future.

The Licensing Summit held yesterday was a success with over 75 people logged in and participating. Thank you to the presenters and the committee that developed the training.

Executive Director’s Report
Executive Director Smith

The executive director provided the following update:

- This has been a year of change:
  - The IMLCC and our member boards have provided a strong response to the COVID-19 crisis. Record numbers of applications and licenses being issued.
  - The IMLCC hired its first employees
    - Dave Clark, Operations Manager
    - Todd Mata, Bookkeeper
  - Implemented iStarsII in August, our first major integrated processing system.
- The IMLCC is working with the Counsel of State Governments and other healthcare compacts regarding actions on the national and state level to create a universal license for physicians. Examples of these types of bills include creating Medical Excellence Zones and Military Spouse Assistance.
- In the next year our goals are:
  - Increase customer service by expanding office hours and hiring new customer service staff
  - Data stabilization in the iStarsII system. This project will take several months to complete. The goal is to have it completed before the next fiscal year begins in July 2021.
  - iStarsII - Phase II. Working with the Technology Committee we will develop the next phase of system enhancements, including logic in the application process to prevent duplicate applications and a more robust renewal process.
  - Create a stronger staff interaction with the IMLCC committees, each IMLCC manager will be assigned a committee to which they will serve as the liaison.
  - The Licensing Summit was successful, so we plan to hold another one in 2021. Thanks to the Licensing Summit Committee members -
    - Commissioner Silas from Alabama
Jaime Dunbar from Iowa  
Commissioner Terranova from Maine  
Anna Boone from Mississippi  
Tara Anderson from Nebraska  
Tammy Sine from Nevada  
Melinda Boyle-Prior from Wisconsin  
Dave Clark, IMLCC Operations Manager

- Improving communication to commissioners and others by continuing to provide information and data, but expanding that process to ensure that the information provides a story about the IMLCC’s success.
